Happy Customers Worldwide

Welcome to our state-of-the-art Clinical Management System

Designed to revolutionize the way you manage outpatient services. Our Out-Patient Management module is meticulously crafted to streamline your clinical workflows, enhance patient care, and improve overall operational efficiency.

Appointment Management

Efficiently manage appointments and calendars, whether for individual doctors, all doctors at once, or across multiple locations, all from a single screen.

Doctor View

Focus on the appointment and calendar management of a single doctor at a time.

Hospital View

Manage the calendar and appointments for all doctors simultaneously on a single screen.

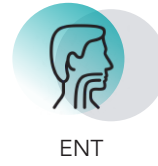

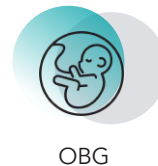

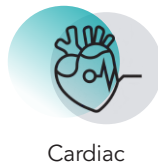

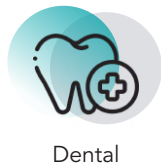

Combo View

Manage the appointments and calendar of a single doctor across multiple locations.

Comprehensive Out-Patient Case sheets

15+ Comprehensive OP Casesheet Templates. Simplify Your Documentation Process!

Pre-Consultation

Optimize the patient journey from the outset with our efficient pre-consultation tools. Designed to streamline processes, features like quick patient registration and advanced search management ensure a smooth experience, enhancing patient convenience and satisfaction.

On Consultation

Empower healthcare providers during consultations with advanced tools that facilitate real-time documentation and informed decision-making. With features such as instant access to patient history and comprehensive OP case sheets, clinicians can deliver high-quality care efficiently.

SEAMLESS INTEGRATION

Experience streamlined operations and enhanced efficiency with MocDoc's seamless integrations. Our system effortlessly connects with government health initiatives and leading Enterprise Resource Planning (ERP) systems, ensuring synchronized data flow and improved healthcare delivery.

Government Systems

MocDoc collaborates with government health initiatives across various regions, empowering healthcare institutions to integrate with official systems for enhanced compliance and operational efficiency.

MyKad (Malaysia)

MyKad-EMR integration automates patient data capture from the Malaysian ID card, streamlining check-ins and reducing errors.

VMS (Fiji)

Integrated with the VAT Monitoring System (VMS) to streamline tax monitoring and reporting, ensuring compliance and financial transparency.

AASANDHA (Maldives)

Synchronized with AASANDHA to unify outpatient medical records with government-authorized platforms, enabling accurate data exchange and improved healthcare access.

ERP Systems

Optimize your hospital's management processes with MocDoc's integrations with leading ERP systems, facilitating seamless data transfer and operational excellence.

SAP

Integrate financial and clinical workflows with accurate real-time data transfer.

Odoo

Automate records, sync inventory, and optimize routine tasks for efficiency.

Why MocDoc?

HIPAA, ISO, GDPR, & SOC II Compliance

Highly Secured & Encrypted

User Friendly Interface

Flexible Configurations

Online Onboarding with a Dedicated Support Team

Continuous Software Updates and Enhancements

Easy Integration with 3rd Party APIs including RCM, EMR, and other Software

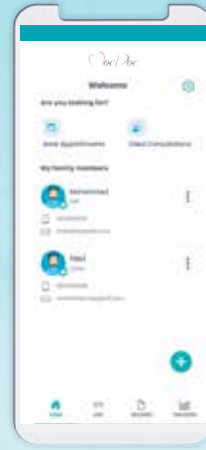

Cross-Platform Accessibility

● Doctor App

Manage patient information and consultations efficiently, allowing for seamless communication and improved care.

● Patient App

Access health records and appointments with ease, empowering patients to take charge of their healthcare.
